

# Debris Removal Rules in Flagler County

- County residents who live in the unincorporated areas of Flagler County are asked to place any storm-generated debris on the public right-of-way. Debris removal operations will begin October 10.
- **The public right-of-way is the area of residential property that extends from the street to the sidewalk, ditch, utility pole, or easement on PUBLIC ROADWAYS.**
- Keep vegetative debris (woody burnable debris such as limbs and shrubbery) separated from construction and demolition debris, as they will be collected separately.
- **ONLY DEBRIS THAT WAS GENERATED FROM THE STORM WILL BE COLLECTED.**
- Bagged debris should not be placed on the public right-of-way; only loose debris will be collected.
- If you have any hazardous waste to dispose of, Flagler County's household hazardous waste collection center and recycle drop-off center is operated at the closed C & D Facility, located at 1700 South Old Kings Road. Hours of operation are Monday through Friday, 7 a.m. to 3:30 p.m. This service is provided free of charge to Flagler County residents.
- Hazardous waste accepted at the landfill includes used motor oil, antifreeze, lead-acid and rechargeable batteries, paints, thinners and solvents, pool chemicals, fluorescent light bulbs and gasoline.
- **DO NOT** place debris near water meter vaults, fire hydrants or any other aboveground utility.
- Only debris placed on the public right-of-way will be eligible for collection until further notice.
- **Regular debris sweeps will be made, but there is no set schedule.**
