

Internet Access and Computer Use Policy

Policy Statement:

The Flagler County Public Library System provides access to a broad range of information resources, including those available through the Internet. This access is part of our vision to serve as a gateway to an ever changing world of knowledge and to improve quality of life through supporting the love of reading, the joy of learning and the search for information.

Flagler County Public Library Board of Trustees subscribes to the principles set forth in the [American Library Association's Library Bill of Rights](#), Freedom to Read Statement and Freedom to View Statements. These rights apply to all regardless of age and without restriction of access to all constitutionally protected materials unless otherwise prohibited by law.
