FOR IMMEDIATE RELEASE

Diesel fuel spill at State Road 100 detours traffic in Bunnell

A DeFord's Fuel & Oil truck rolled near the intersection of SR100 and US Route 1, leaking an estimated 900 gallons of its 1800-gallon diesel fuel tank, and closing north and south bound lanes of US Route 1. There were no injuries and no evacuations, however the tanker continues to leak.

The Department of Environmental Protection has been notified, as has the Environmental Protection Agency, and the St. Johns County Fire Rescue Hazmat team is on its way to the scene to aid in containing the spill.

Motorists are asked to avoid the area.

"The Department of Transportation has been notified," Flagler County Fire Rescue Chief Don Petito who is on-scene said, "This did impact the roadway which will probably require asphalt work. We anticipate the US Route 1 / SR100 intersection to remain closed for some time."

Responding agencies currently on scene include Flagler County Fire Rescue unit #92 from the Flagler Executive Airport, and unit #62 from the Bunnell Fire Station. Bunnell's City Manager Dan Davis is on scene with Bunnell Public Works Manager Michael Boileau and Bunnell Fire Manager Ron Bolser.

More information will be released as it becomes available.
