Wetland restoration community meetings scheduled

October 1, 2018 – St. Johns River Water Management District announced two upcoming community meetings to share information with those interested in the Flagler County Wetland Restoration Project – a project designed to increase the wetland area, which increases productivity and provides valuable habitat.

Both meetings will be held at the Flagler Beach City Hall, 105 S. 2nd Street. The first meeting will be held at 5:30 p.m. Thursday, October 4. The second meeting will be held about a month later – 5:50 p.m. November 7.

“We know this topic is very important to our residents here in Flagler County, so we are helping to get the word out,” County Administrator Craig Coffey said. “These meetings will allow the public to provide input to the Water Management District.”

St. Johns River Water Management District is partnering with the U.S. Fish and Wildlife Service, Florida Fish and Wildlife Conservation District, Florida Department of Environmental Protection, and the Florida State Park System to restore dragline ditch-impacted wetlands in Flagler County.
