**Subject:** RE: Closeout for the Flagler County Sherriff 14300-AB

Good afternoon Marc,  
Sorry I don't have knowledge of when the fire doors were removed but when we demolished the wing sections the door were already removed. I would say that CC Borden performed the task of removal and disposal but I don't know if that was before Darcco removed materials or after. I wish I knew more, if I find out any more information I'll contact you.  
Thank you

Hi Mike,

Still trying to cover all my bases. The 2013 asbestos survey for the old hospital mentions fire doors that are assumed to be asbestos, unless they are tested afterward and proven otherwise. Do you have any idea how and when these doors were removed (if at all) during the renovation and demolition activities by CC Borden or the County?

Thank you

Marc

Good afternoon Marc,  
I've attached the re-roof permit that has the roofing contractor's information and the dates that work was done. I spoke with the Flagler County Roofing and they said the disposal site is, Flagler Construction & Demolition 2190 County Road 13 Bunnell, Florida 32110. Their phone # is (386)753-3187. Flagler County Roofing does not have asbestos removal training and did not know that asbestos was present when they performed the re-roof job. Darcco completed the work last Thursday and all went well. If you need any further information please contact me.  
Thank you

Hi Mike,

We are near the end of this case, I just want get some last details on the roof removal for the former food bank building. Could you provide the date, roofing company, disposal site and if known, whether the company had asbestos removal training? Thank you. Did the removal of the remaining asbestos ceiling go Ok?

Hi Mr. Dickson,

See attached closeout letter from 2014 that Darcco Environmental provided to me. In the letter, it stated that the asbestos cement ceiling in the community building was removed. I believe you said it was still there. Attached is our Asbestos Renovation or Demolition notification form. Please fill out for the March 2017 demolition project and return to me. I also attached a FAQ document on the asbestos NESHAP, which we regulate at the FDEP.

I will keep you informed on how we want to close out the this case. Thanks for the cooperation.

Mr. Dickson,

I am looking into the demolition of the old Memorial Hospital at 901 East Moody Blvd that took place last year, due to concerns about asbestos. Your name appeared on a building/demo permit for this site. Please contact me so we can discuss the matter.
