Craig,

Some of the employees involved have indicated they have an attorney. The attorney indicated today they are willing to release medical records related to building related issues but only to the medical doctor we have hired. We are trying to work through the release process with the PBA and their WC attorney.

Kayla, Renina, Mark – please provide any further update on this issue to all on this email.

Sheriff,

Please see below. Is there a coordinator with personnel that is collecting any information and that may have the HIPPA permission to release it to Dr. Hejzlar? or are there individuals that have indicated they will release it directly to him. I will see how Dr. Hejzlar wants to receive it and have someone get back to whoever you designate to coordinate this issue.

I have copied Faith on your email to employees yesterday asking for assistance.

Craig

Faith, I want to test for mold on Marijuana. This mold has a special name. There was a evidence room deputy who had breathing problems while working in that room. Since being reassigned on the road has cleared up. They are saying if bad enough it could get into the blood as well. That might be something to be added to the scope. This issue if part of the problem is very fixable. Craig

Dr. Hejzlar modified the most recent proposal slightly and asked that I re-send to you for submittal. Please discard Phase II proposal from yesterday and use this one (attached) in its place.

Thank you again,
Connie
