Subject: FW: Testing progress update

Good afternoon team,

Attached is a letter from ESI providing a status on the testing of the building and sample collection. If after your review of the letter you think of any other areas/concerns or possible testing that should be done please send your suggestions to Chief Strobridge who will communicate them to the County.

A few employees have asked me about the status of the Sheriff Homer Brooks Tactical Training and Fitness Center building (complex out-building). At this time the building is still closed until the county finishes its renovation and testing.

I hope everyone is settling in to your new accommodations. If you have any issues or concerns related to the move or your ability to efficiently work in the current conditions please relay them to your Division Chief who will communicate them to Chief Strobridge to resolve.

Since we are all relocated to temporary space now my daily updates will end. I will continue to provide updates on the building when updated information is received. It is believed that we will receive a full report from ESI by the end of July.

Thank you again for your cooperation and I hope you have a good and safe week

Rick Staly
